

## HOME SCHOOLING

1. Requirements for approval of home instruction will include:
  - The parent or legal guardian must request permission to hold home instruction on an annual basis.
  - A home instruction application form will be provided to the parents or legal guardian. This form must be completed and returned to the Superintendent or designee before approval may be granted.
  - The Committee delegates the approval of home instruction to the Superintendent. Any approval or rejection of an application by the Superintendent or designee is subject to review by the Committee.
  
2. Children in home instruction may, at the discretion of parents or guardian, attend the public schools on a part-time basis. It may be an advantage for a home-taught child to attend specialized classes in the public school.
  
3. Parents or a legal guardian in charge of home instruction should make provision for regular testing or use of other indicators of student progress such as standardized achievement tests. As an alternative to home testing and at the request of those in charge of the home instruction, the School District will make provision for inclusion of home-taught children in the annual achievement test battery, which is usually administered in February or March of each school year. The home instruction summary form must include either a summary of home testing results for each required subject for each child or the results of the achievement test or other assessment methods (i.e. portfolios, work samples, etc.) that are administered through the School District.
  
4. Within one week of the ending date of the home instruction, as indicated on the home instruction application form, the School District will mail the parents or legal guardian a home instruction summary form. The completed form should be returned to the School District within 30 days. This summary form must be returned to the

School District office before annual approval of home instruction can be made for any succeeding years.

5. The Committee will act in a responsible, cooperative manner to ensure that all children in the School District receive competent, adequate instruction. This concern includes children in home education. If the Committee determines that a home instruction situation is inadequate, a conference between the parents or legal guardian and the Superintendent will be scheduled to find mutually acceptable ways to correct any deficiency.

7. If deficiencies in a home education situation are not corrected or the proper annual application or summary is not completed by the parents or legal guardian, an appropriate referral will be made.
