

2021

Dear Parent(s)/Guardian(s):

This May, we will be exploring Spring, gardening, and plants. We are so excited to learn about the flowers and plants through literature, hands on activities, crafts, and so much more.

This month reviews our 4th social thinking concept, 'Body in the Group', where we learn about how our bodies are viewed by our peers based on our actions. As we develop more social awareness about our bodies in the group we are able to develop better relationships.

As the weather keeps getting nicer, we will be going outside. Please make sure your child is dressed appropriately for outside. Rubber soled shoes are the safest for the play structure along with sunscreen and bug spray as needed.

If your child is off to kindergarten next year, please be sure to register them with their home school if you have not done so yet. Prior registration helps the administration plan classes and programs appropriately.

If you know anyone that is interested in preschool for the 2021/2022 school year, please let them know that we are having an informational meeting on May 5 at 6:00pm.
