

August 4, 2020

Dear Parents and Guardians,

On Monday, August 3, 2020, the School Committee voted to return to school in a Hybrid Model for students (Please read the full [Comprehensive Draft Plan](#) attached to this email).

At this time, families are required to confirm enrollment for the 2020-2021 school-year. By completing the [Fall 2020 Return Model Confirmation](#), you are certifying that you have read the Comprehensive Report and you are choosing a model for the year. You must complete **ONE form** (please use the above link) for each student either attending school in the Hybrid Model or Remote Model. This form is due no later than noon on **Sunday, August 9th**. Families that do not complete the form will be placed into the Remote Model.

The certification enrollment form will ask for the following information:

- 1) Student information
- 2) School Information (Building and grade level)
- 3) Transportation needs - The district must reduce overall ridership to have the Hybrid Model be viable. We continue to ask families if they are NOT going to take the bus, to complete the 2020-2021 [Opt-Out Bus Survey](#). As initial surveys indicate that our district has enough families willing to opt-out of bussing, we need this information to confirm our routes. If you have completed this already in our previous survey, you do not need to complete this again.

We thank everyone for your cooperation in attending to this needed information.
