

Parent Mentor Program

Are you new to special education? Has your child just received a diagnosis? Are you trying to navigate the IEP process, or just want to talk with someone who gets it?

Or are you a parent whose child already has a diagnosis and have already been in the trenches for awhile? Are you already involved in the IEP process for your child? Do you like to help people?

The Parent Mentor program might be right for you!!

Getting a diagnosis for your child can be scary and full of emotion. You are often handed endless amounts of literature, wondering when you will have time to read and make sense of it all. Not to mention, plenty of fears and worries of what this means for your child.

NM SEPAC wants to help!

We are looking for veteran parents who are willing to be matched with a new parent to share advice, answer questions they may have or just be a friendly voice that they can speak with who actually understands what they are going through.

We think this will be a great resource for new parents, and a great way for veterans parents to share their knowledge!

Interested parents should please message or email us nmrsdsepac@gmail.com us with your name, town, school your child attends, diagnosis, child's age, and if you are a new parent, or would like to be a mentor! We'd love to have matches for our next meeting November 5, 2019. Thanks!
